**ARCHITECTURAL AS BUILT
HIGHLAND PARK RESIDENCE**

[illegible]

This is a detailed architectural elevation drawing of a two-story building, likely a residential structure. The building is constructed from stone, with a central entrance featuring a double door under a semi-circular arch. To the left of the entrance is a large arched window, and to the right is a smaller arched window. Above the central entrance is a balcony with a decorative railing. The roof is gabled with a central dormer window. The drawing is a black and white line art, showing the intricate details of the stone masonry and architectural elements.
