This is a detailed architectural line drawing of a two-story building facade. The structure is constructed from stone, with a central entrance featuring a double door under a semi-circular arch. To the left of the entrance is a large arched window, and to the right is a smaller arched window. Above the central entrance is a balcony with a decorative railing. The roof is gabled with a central dormer window. The drawing includes various architectural details such as cornices, moldings, and a small balcony on the left side. The overall style is that of a traditional architectural sketch.
